REVISED AXONOMETRIC VIEW

SITE PLAN

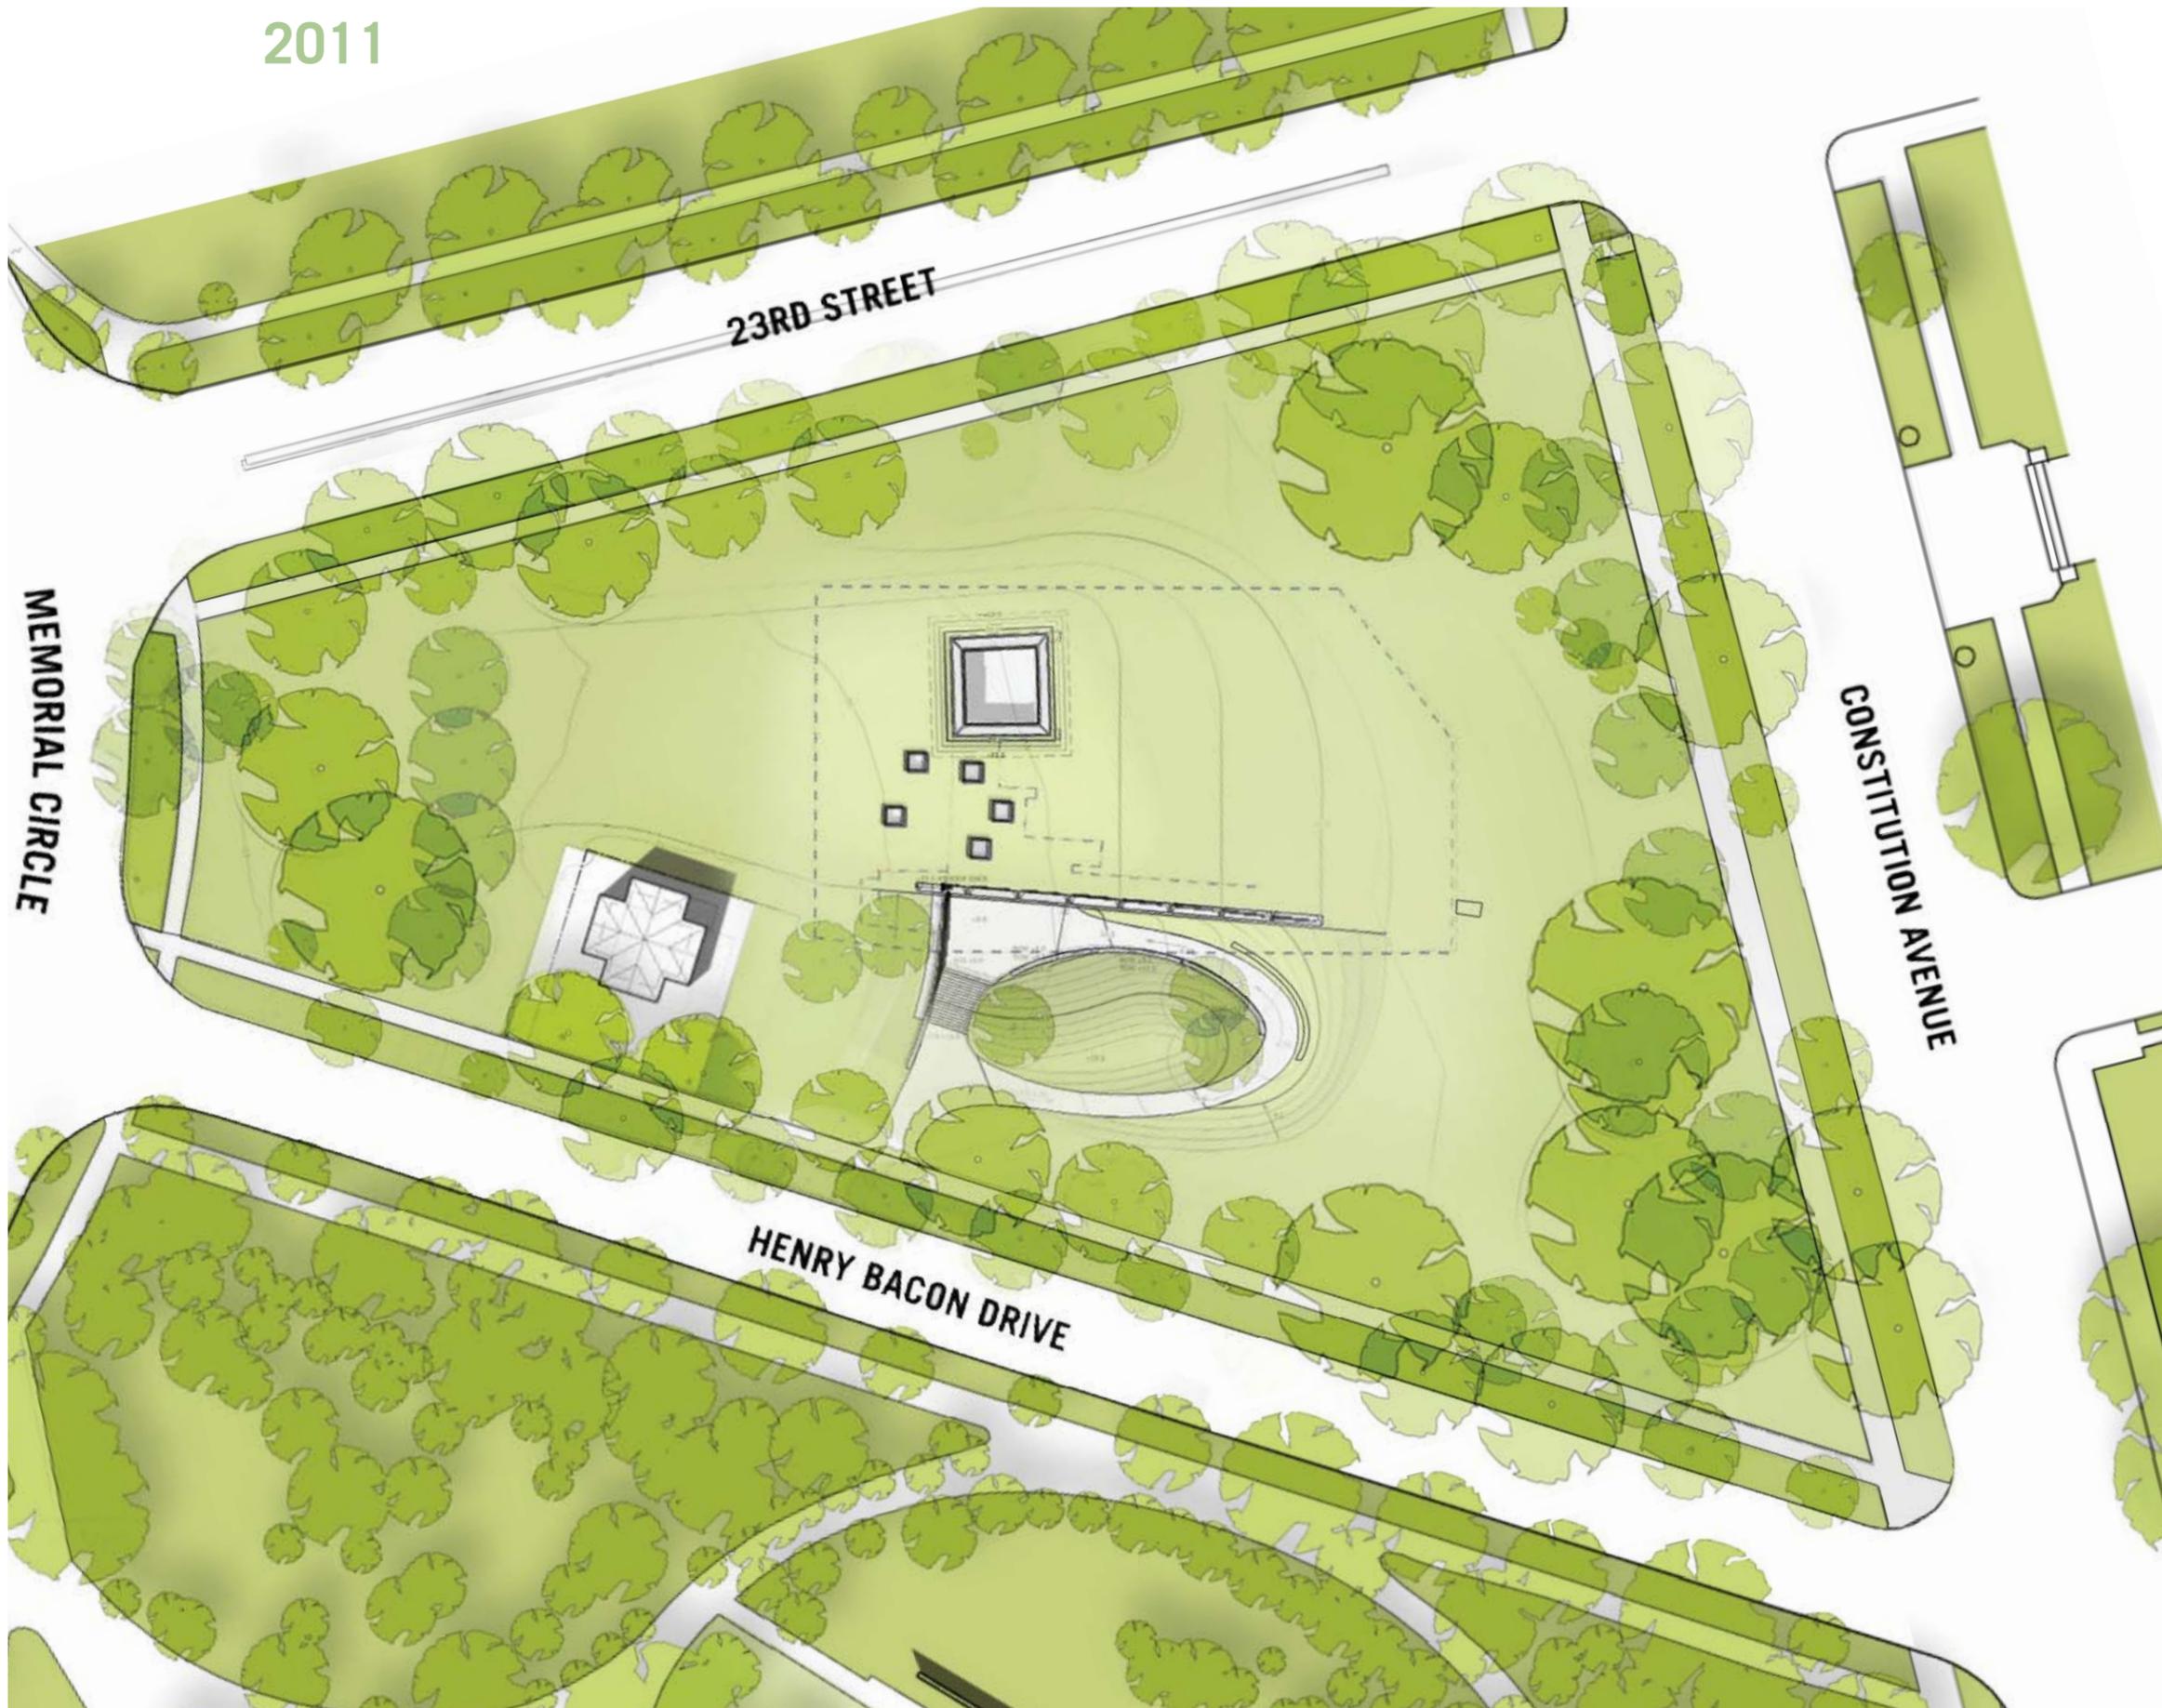

**NCPC Recommendations:**

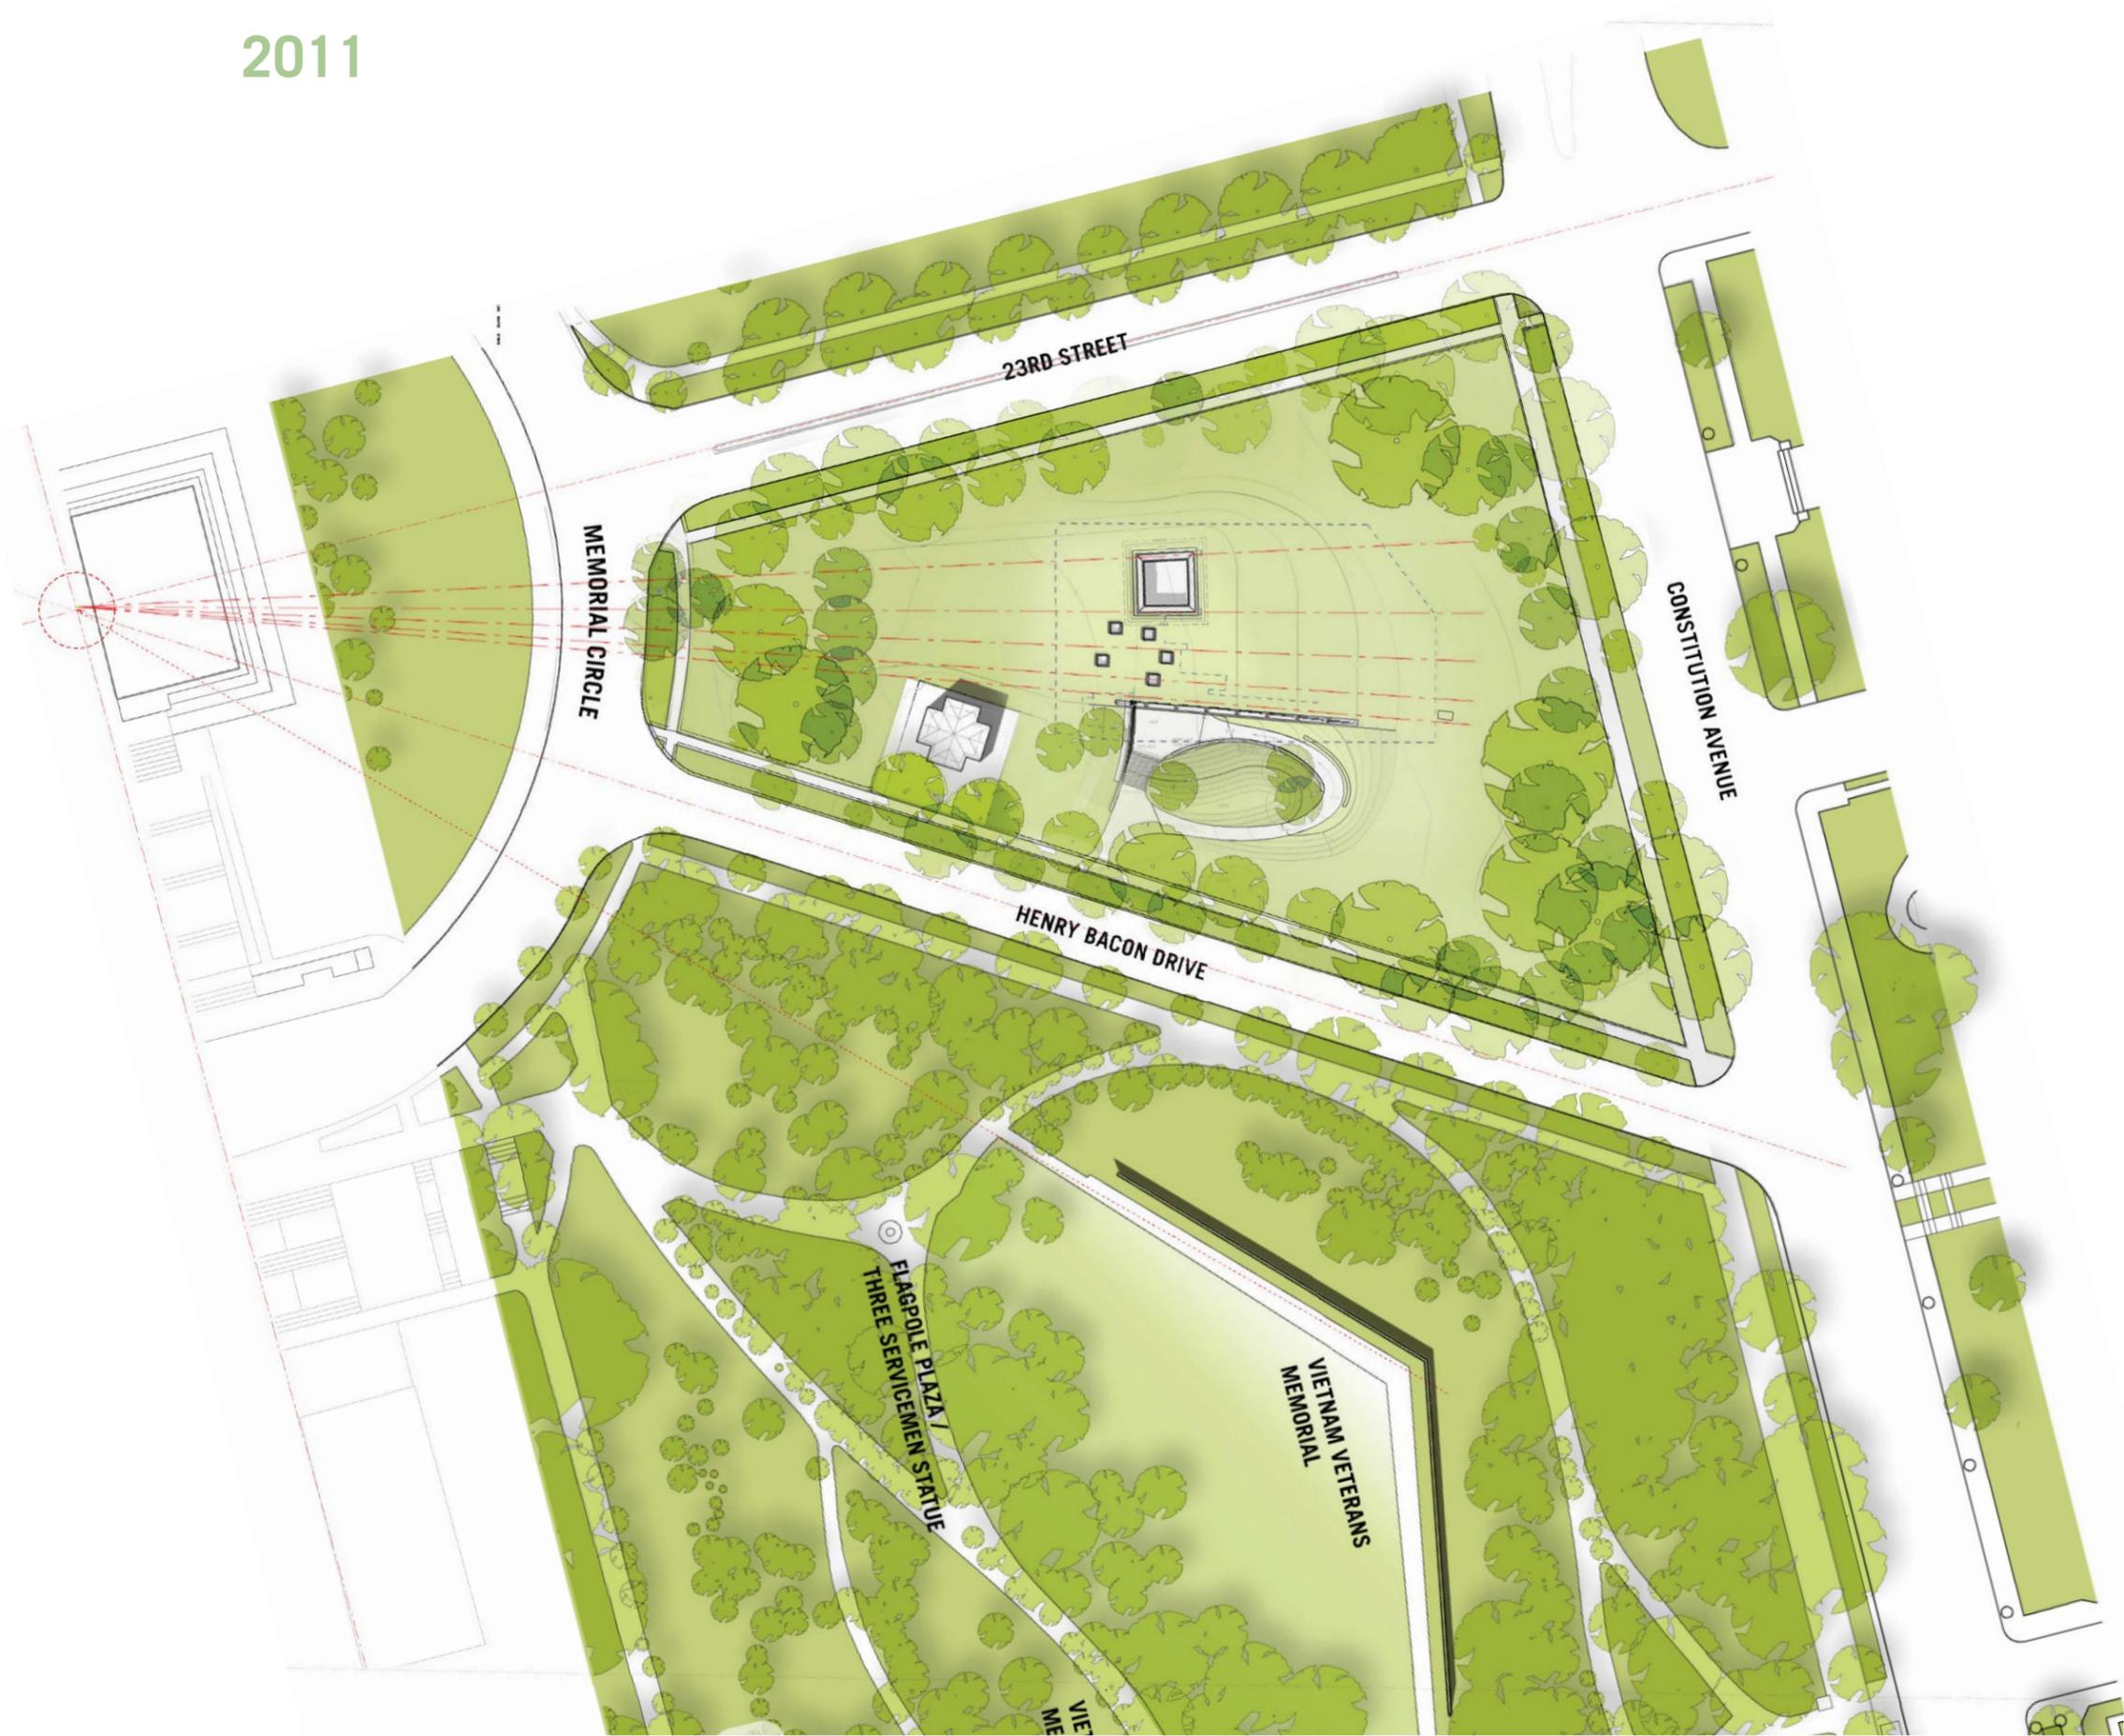

**Eliminate the walk from Constitution Avenue and associated berms so that the Center is less visible from Constitution Avenue and Henry Bacon Drive. This will also allow for more multi-recreational use on the site.**

**Eliminate the skylights to minimize the Center's intrusion on the landscape and to allow for multi-recreational use on the site.**

**Reduce the size of the open courtyard and the length of needed guardrails to minimize visibility from the Lincoln Memorial.**
