Subject: NEPA and NHPA Clearance: 2011-020 Parkwide Visitor Restroom ADA Upgrade (37338)

The Executive Leadership Team has reviewed the proposed project/action and completed its environmental assessment documentation, and we have determined that there:

- Will not be any effect on threatened, endangered, or rare species and/or their critical habitat.
- Will not be any effect on historical, cultural, or archeological resources.
- Will not be serious or long-term undesirable environmental or visual effects.

The subject proposed project, therefore, is now cleared for all NEPA and NHPA compliance requirements as presented above. Project plans and specifications are approved and project implementation can commence.

For the proposed project actions to be within compliance requirements during project implementation, the following mitigations must be adhered to:

- Ensure continued coordination with the park Anthropologist and the park History, Architecture and Landscapes branch.

For complete compliance information see PEPC Project 37338.

If you have any questions, please let me know.

Project: 2011-020 Parkwide Visitor Restroom ADA Upgrade

PEPC Project Number: 37338

Project Description:

This project proposes to construct various Americans with Disabilities Act (ADA) compliant upgrades to restroom facilities within Yosemite National Park including the Tuolumne Meadows Service Station, Wawona Service Station, Yosemite Village Employee Services (near Village Store), and the Curry Village Stables Restrooms. A design architect has inventoried these sites for ADA deficiencies and identified specific areas to correct deficiencies. The ADA transition report recommends upgrading these restrooms. Specific areas are:

- 1) Tuolumne Meadows: Upgrade plumbing fixtures. Demolish the footprint and re-design of the interior for both men's and women's. Install new wall materials, plumbing, partitions and fixtures. This building contributes to the Tuolumne Meadows Cultural Landscape.
- 2) Wawona: Upgrade plumbing fixtures. Demolish the footprint and re-design of the interior for both men's and women's. Install new wall materials, plumbing, partitions and fixtures. This building contributes to the Wawona Cultural Landscape.
- 3) Yosemite Village North End Restroom (Hair Care): Perform an analysis of the existing restroom space and path of travel. Construct upgrades to improve accessibility to the north end Village Store Complex Restrooms. Alter the sidewalk approach, the door size and opening, and the number and configuration of stalls, commodes and sinks.
- 4) Curry Village Stables Restroom: Install/rehabilitate the Valley Stables restroom. Replace drywall, ceiling and all hardware. Modify electrical. Install new sinks, toilets, urinals, fixtures, tile, plumbing, flooring and painting. Install insulation in the attics. Ventilate the bathrooms. The restroom is historic, has heavy use and needs complete component replacement. No alterations to the building footprint will occur to meet ADA Standards.

Schematic designs are currently being developed for each location listed above. Design will continue to 100% Construction Documents with internal reviews at the Schematic Design, Design Drawing, and Construction Document level by various park staff, including the ADA Coordinator, park Anthropology Branch staff and park History, Architecture, and Landscapes Branch staff.

Project Locations:

Mariposa and Tuolumne Counties, CA

Mitigations:

- Ensure continued coordination with the park Anthropologist and the park History, Architecture and Landscapes branch.

Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):

C.4 Routine maintenance and repairs to cultural resource sites, structures, utilities and grounds under an approved Historic Structures Preservation Guide or Cyclic Maintenance Guide; or if the action would not adversely affect the cultural resource.

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.
