## Categorical Exclusion Form

**Project:** 2012-015 Commercial Use Authorization - Chain Installation

**PEPC Project Number:** 41528

**Project Description:**

The Commercial Use Authorization (CUA) is a tool required by the National Park Service to regulate and oversee the commercial use of National Park Service lands, not regulated under a Concessions Management contract. This CUA, also known as a permit, is issued to companies or individuals conducting a commercial in-park business. As an in-park business the CUA Holder is allowed to offer their service to install and uninstall Caltrans approved traction control devices known as tire chains or tire cables to the public and collect payment for their service inside of Yosemite National Park boundaries. This service is offered as a roadside service along designated chain installation areas. This CUA does not authorize the Holder to rent, sell or repair tire chains or cables. The permitted activity is to be conducted only in those areas of Yosemite National Park authorized by the CUA. The CUA holder is required to obtain a chain installation training certificate from Caltrans along with any additional permits or license required by law.

**Project Locations:**

Mariposa and Tuolumne Counties, CA

**Mitigations:**

- No mitigations identified.

**Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):**

A.6 Commercial use licenses involving no construction.

**On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.**
