Memorandum

To: Sean McCabe, Project Manager, Yosemite National Park

From: Superintendent, Yosemite National Park

Subject: NEPA and NHPA Clearance: 2014-022 El Portal Administrative Site Davenport Addition (52914)

The Executive Leadership Team has reviewed the proposed project/action and completed its environmental assessment documentation, and we have determined the following:

- There will not be any effect on threatened, endangered, or rare species and/or their critical habitat.
- There will not be any effect on historic, cultural, or archeological resources.
- There will not be serious or long-term undesirable environmental or visual effects.

The subject proposed project, therefore, is now cleared for all NEPA and NHPA compliance requirements as presented above. Project plans and specifications are approved and construction and/or project implementation can commence.

For the proposed project actions to be within compliance requirements during construction and/or project implementation, the following mitigations must be adhered to:

- Contact Park Archeologist Sonny Montague if unanticipated historical or prehistoric resources are located during ground-disturbing activities.

For complete compliance information see PEPC Project 52914.

Categorical Exclusion Form

Project: 2014-022 El Portal Administrative Site Davenport Addition

PEPC Project Number: 52914

Project Description:

Andrew and Erin Davenport own a private home in the El Portal Administrative Site. The house is located within a residential neighborhood administered by the National Park Service (NPS) to provide housing for NPS employees, contractors and partners.

The Davenport's would like to add a second floor and external stairway to their existing house. In order to obtain a Mariposa County building permit to construct this addition they must first obtain the approval of the NPS.

The proposed addition would keep the house as a single family residential structure and will retain the massing, scale and character found in other single family residential structures found in the neighborhood. An exterior stair will be built on a concrete pad measuring 3 feet by 3 feet by 18 inches.

Once approved the construction of the addition should take between 9 and 12 months to complete.

Project Locations:

Mariposa County, CA

Mitigations:

- Contact Park Archeologist Sonny Montague if unanticipated historical or prehistoric resources are located during ground-disturbing activities.

Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):

C.18 Construction of minor structures, including small improved parking lots, in previously disturbed or developed areas.

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.
