

Installation of Storm Windows on Chatham Manor, Laundry and Kitchen
Photos

Chatham Manor – rear (east) façade

Typical double hung sash window in Chatham Manor FRSP proposes to install an interior storm window. In the exhibits rooms, the windows will be tinted to reduce penetration of UV light.

Detail of typical double hung sash window in Chatham Manor. The decorative brass handles will be removed, bagged, tagged, and stored.

Chatham Kitchen – rear (south) and east facades

Typical double hung sash window in Chatham Kitchen. FRSP proposes to install an interior storm window.

Typical casement window in Chatham Kitchen. FRSP proposes to install an interior storm window.

Chatham Laundry – front (south) façade

Typical double hung sash window in Chatham Kitchen. FRSP proposes to install an interior storm window.

Interior storm window in the Superintendent's House (Quarters #2). The park proposes to use this same style of interior storm window. Two pane for the second floor of Chatham Manor, and single pane for the first floor, as well as the Laundry and Kitchen.
