### A. PROJECT INFORMATION

**Title:** Yosemite Valley Campground Office Impound Locker Relocation

**Location:** Yosemite Valley, Mariposa County, California

**Project Manager:** Melissa Carter, Business and Revenue Management, Yosemite National Park

### B. PROJECT DESCRIPTION AND BACKGROUND

Due to safety concerns for staff and visitors, we propose moving the food and equipment impound locker approximately 25 feet from behind the existing fence adjacent to the Yosemite Valley Campground Office around to the front of the Office. The locker is 71" wide, 79" tall, and 83" long. It is used by Resources Management, Interpretation, Protection, and BRM staff to store food impounded from campsites, vehicles, and lodging to protect wildlife and the property and safety of park visitors. In its current location, the locker is over a seasonal creek which makes it virtually impossible to access during the spring and early summer months. It is also sinking into the mud. Currently there is no lighting, so it is hazardous when using the locker during the night. We propose to move the locker around to the front of the fence adjacent to the Office, which is already a disturbed area, and would construct a fence to screen it from view. By moving it to the new location, we will also be able to illuminate it properly for safety and security. According to Buildings and Grounds staff, additional gravel would be added and the locker placed on pier blocks. Placement would involve some soil disturbance, about 2-3 inches deep, in order to level the locker.
