## Categorical Exclusion Documentation Form (CE Form)

**Project:** Climbing Exhibit Project, Yosemite Valley Visitor Center

**PEPC Project Number:** 88218

**Description of Action (Project Description):**

This project will replace temporary exhibits that have been on display for twelve years in the Valley Visitor Center. This project includes new exhibits that interpret the climbing history of Yosemite. The existing themes of Global Connections and Faces of Yosemite will be incorporated into the new exhibits. A design process for the new exhibits began in June of 2019 with the expected installation occurring in spring 2020. The proposed climbing exhibits would include removable/reversible attachment methods similar to what is there now. The existing exhibits will be removed by the contractor and sent to a waste facility.

**Mitigation(s):**

- Rear window and door glass shall remain free of exhibits. Any changes to approved attachment design must be reviewed and approved by the Yosemite Environmental Planning and Compliance Office.
- Only actions specified in PEPC 88218 are approved for implementation. Changes to or deviations from the approved plans require additional review and approval from the Yosemite Environmental Planning and Compliance Office.

**CE Citation:** C.5 Installation of signs, displays, kiosks, etc.

**CE Justification:** Remove outdated interpretative materials at the Valley Visitors Center and replace them with new exhibit

**Decision:** I find that the action fits within the categorical exclusion above. Therefore, I am categorically excluding the described project from further NEPA analysis. No extraordinary circumstances apply.
